Icebreaker

In the chat:

Share your name, what government you represent, and answer:

What is a new grant program your government has launched in the last year? What outcomes were you trying to achieve?

 **Framing/Introduction**

 **Challenges with Grantee/Subrecipient Management**

 **Active Grant Management**

 **Government Promising Practices**

 **Community Conversation Workshop**
Share-out & workshop challenges!

Session Objectives

How can governments establish effective grant programs and set up subrecipients for success?

- Share **common challenges** that governments and subrecipients face when managing grants towards successful outcomes.
- Discuss **strategies** to foster programmatic excellence and financial transparency.
- Highlight **promising practices** and examples of governments implementing effective grant management practices.

Look out for the Community Pulse Check!

When you see the blue pulse across your screen,
please join the conversation!

Feel free to come off mute or share feedback in the chat!
We want to hear from you!!

Governments face challenges across these stages

Community “Pulse Check”

What **challenges has your government experienced across these stages?**

SPEAK or POST IN THE CHAT!

Active Grant Management (AGM) Formula

Defined, rigorous process, communication of expectations, and consistent engagement
to build excellent subrecipient/grantee performance that fosters community outcomes.

Process	Communication	Engagement	Execution
<ul style="list-style-type: none">❑ Clear, documented interpretation of rules and guidance❑ Defined internal financial policies and procedures❑ Confirm internal roles and responsibilities❑ Risk assessment, evaluation & scoring protocols❑ Risk mitigation strategy plan	<p><u><i>Start of the Award:</i></u></p> <ul style="list-style-type: none">❑ Kickoff meetings & orientation❑ Review grant agreement and clarify guidance❑ Review baseline data and key performance measures❑ Offer continuous learning curriculum	<p><u><i>During the Award:</i></u></p> <ul style="list-style-type: none">❑ “Low stakes” Meetings❑ Monthly Invoicing❑ Progress reports❑ Desk reviews & site visits❑ Group convenings & ‘Community of Practice’ meetings❑ Listening forums (or surveys)	<ul style="list-style-type: none">❑ Implementing “Subrecipient Monitoring Action Plan”❑ Issue resolution & management❑ Reviewing & revising protocols❑ Achieving outcomes!

Subrecipient Monitoring “Toolkit”

Compliance Management
Are recipients following **requirements**?

Subrecipient Procedures

Collection of resources, processes and protocols that outline how an organization intends to **guide, support and oversee subrecipient compliance** through pre-award, awarding and contracting period stages.

AGM “Promising Practices” in Action

**Program “Decision Trees” used to clarify guidelines
--
Increased equity in RFP processes**

Long Beach, CA

Building Technical Assistance (TA) supports to improve grantee readiness

Long Beach, CA

Empowering grantee compliance by using “pay for performance” structures

Saint Paul, MN

Data management & community performance management convenings

Glendale, CA

Challenge: Understanding rules/guidance and monitoring compliance

**Designed
“Decision Trees”
to clarify federal
rules and
guidance**

Long Beach, CA

**Why this was
important?**

Program design process folded in financial and compliance staff to collaborate on program design and financial processes required for grant management.

**How does this
help manage
grantees?**

Provided guidance to program/department staff to understand all requirements and share those with grantees.

Lesson Learned/Advice

Consolidated & streamlined documentation increased consistency!
Led to clear understanding, communication & application of rules!

Examples of Decision Trees

Program Design & Documentation for ARPA-COMPLIANT PROGRAMS

This program will deliver money directly to individuals or organizations with goal of providing direct relief.

[See List 1.1 for Direct Relief program components](#)

- | | |
|-----------|---|
| 1 | <u>Will a third party administrator be involved in administering program? (See List 1.2)</u> |
| 2a | Will third party administrator assist in making selections/decisions around who receives grant? |
| 2b | Will third party administrator assist in processing payments? |
| 3 | Direct relief/cash assistance programs must be based on negative |

This program will be providing an essential se

- 4 Will the program require a good or service above \$25,000? *

Department staff must use

As part of Program Design

Program Design & Documentation for OTHER GRANT PROGRAMS

This program will deliver money directly to individuals or organizations with goal of providing direct relief.

See List 1.1 for Direct Relief program components

- 1** Will a third party administrator be involved in administering program? (See List 1.2)

Program Design must account for Department resources administering all aspects of the direct relief program (List 1.1), including demonstrate appropriate internal controls for a direct relief program, Department staff must identify eligibility and selection criteria

Documentation: Program Design with eligibility and selection criteria identified. All applicant materials and decision-making

1. Department staff must use RFP process to select vendor(s), and selection criteria for vendors must be approved by FM.
2. FM must participate in evaluation/selection committee for the RFP.
3. Scope of Work for vendor contract must be approved by FM.
4. Department staff must monitor and approve vendor service delivery before paying invoices.
5. See questions 2a and 2b.

Documentation: All procurement documentation as required by normal procurement processes.

Challenge: Increasing contracts with small, community-based organizations

**Designing
inclusive &
equitable grant
application
processes
(RFPs)**

Long Beach, CA

**Why this was
important?**

**Building accessibility to funding and partnership
with the City, to include first-time recipients/non-
profits with strong value potential**

**How does this
help manage
grantees?**

**Helped invite re-thinking of accessibility of
contracting processes and forms which have
downstream impacts.**

Lesson Learned/Advice

- Spend time analyzing processes and documents upfront!
- Consider adjusting the length of application, number of proposals allowed, focus on simplified response types/questions; *data management processes are also simplified this way*

Challenge: Building support programs & resources to upskill grantees

Building Technical Assistance(TA) supports to improve grantee readiness

Long Beach, CA

Why this was important?

Complex compliance regime associated with high dollar grants typically preclude first-time recipients/non-profits with strong value potential to be grantees.

How does this help manage grantees?

Supporting the capacity building of these grantees promotes compliance and partnership with the agency, as well as build valuable skills in the local community for years to come.

- **Piloting a small program with TA, with goal of building in future years (\$5M out of \$250M total ARPA)**
- **Contracted out technical assistance** (*finding ways to support local TA/operations excellence with federal funding*)

Challenge: Drafting result-driven grant agreements to enforce compliance

**Empowering
grantee
compliance by
leveraging “pay for
performance”
structures**

Saint Paul, MN

Community Gun Violence Prevention Grant

Increased access to funding for public safety programs that disrupts/prevents situations of violence.

**\$1M, 5-10 awards
2-year contracts
\$87,450-\$174,900**

**Performance-based measurements being tied to funding is
proactive method to increase compliance!**

- ❑ Fixed payment structure built into grant agreements and fueled by grantee workplan activities:
 - ✓ **Program Attendance per event:** \$40/per attendee
 - ✓ **Community Education Sessions:** \$1725/per event
 - ✓ **Public Safety Campaigns:** \$12,700/per campaign
 - ✓ **Gun Safe Commitments:** \$285/per agreement

Glendale using data for compliance

- **City of Glendale's Continuum of Care (CoC) mitigates housing insecurity** to the 63K people experiencing homelessness in neighboring cities & across LA County.
- Manages \$10M in federal, state and municipal grant funding annually. *(increase from \$2M budget pre-COVID)*
- 5-8 consistent network providers working together in Coordinated Entry System (CES) to streamline homeless services and quick re-housing of the homeless population.
- CoC Membership is open to any stakeholders willing to actively participate in community wide strategies to prevent housing instability.

Current Organizational Challenges

Lack of strategic planning or alignment on program goals

Managing increased funding with limited staff capacity

Managing spend-down %/\$ in alignment with grant agreement/contracts

Assessing performance and developing risk-based non-compliance policies

Building support programs & resources to upskill grantees

Monitoring compliance with federal, state, & municipal rules/guidance

Within the CoC, there is a renewed strategic focus on metrics and outcomes to drive funding decisions and grantee compliance.

Data Management:
**Piloting Community
Performance
Management
Convenings**

Glendale, CA

- Data-driven performance management meetings with providers to **build accountability “across the aisle.”**
- **Collectively, workshop best practices to inspire improved outcomes** from subrecipients → *funding is based on collective performance.*

Promising Practice:

Glendale, CA

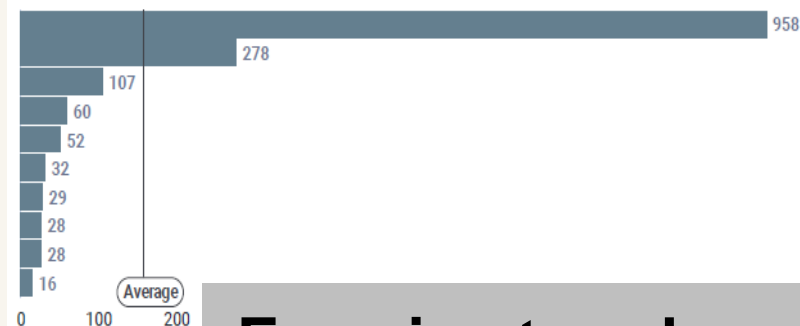

Piloting Community Performance Management Convenings

CoC dashboard created to identify metrics across service providers to build transparency and accountability

Increased/Maintained Total Household Income

Households Served by Agencies (Duplicated)
