

Sprint Participant Testimonials

*Thinking about participating in this **Proactive Contract Management Sprint**? Hearing directly from peers can offer insight into what participants found valuable and how the experience has influenced outcomes! We hope these perspectives help you decide if this opportunity is right for you!*

“

***I was voluntold to participate in this [sprint]...
and wasn't sure what to expect.***

It was incredibly beneficial for our community...Using this [contract management plan] on our biggest project will allow us to demonstrate utility, and then we can roll it out to more projects.

I'm excited to implement some of these skills and strategies going forward.

”

“

It was very helpful to have a system for breaking down a complicated contract and putting it into pieces that were organized and made sense.

When we were walking through it, [the contract management plan], we were being forward-thinking about the next contract.

The whole thing has been a great experience. It illuminated our pain points for sure and helped us align our thinking.
